DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 159 is rejected under 35 U.S.C. 102(b) as being anticipated by Scanlon. Scanlon discloses in the figures a button assembly for actuating a switch including a lens 154 made of a transparent material and including a bottom surface; a base 20 including a top surface and a bottom surface; a recessed portion 152 receiving the bottom surface of the lens; and first means for releasably coupling the lens and base together.

Allowable Subject Matter

3. Claims 85-93 and 147-158 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 85-93 and 147-161 have been considered but are moot in view of the new ground(s) of rejection.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Schadow, Ohashi, Bailey et al, Black et al, Van Benthussysen et al, Schmidt et al, Nakajima et al, and Hunt all teach the releasable coupling of a lens to a button assembly.
